- 1U Fanless !
- Raspberry Pi CM5 !
- 10W TDP Support !
- A-RA18-M1B !

Slim 1U aluminium case with passive fanless cooling for Raspberry Pi Compute Module 5 and CM5 IO Board. The case supports up to 10W TDP, provides full I/O interface access and is ideal for industrial, commercial and embedded long-life applications.

**Features :**

- Passive fanless aluminium case for Raspberry Pi Compute Module 5 and CM5 IO Board
- Slim 1U chassis design
- Full CM5 IO Board interface access
- Internal clearance for M.2 NVMe SSD, 40-pin Raspberry Pi HAT and CSI / DSI camera and display
- Wall mounting brackets included
- Optional 1U 10-inch rackmount front panel available
- Ideal for industrial, commercial and embedded long-life applications
