- Vehicle power 9-36 V
- Analog and AHD video input
- 2x RS232, RS485, 4x GPIO
- For CRD865 and CRD1065

The cable set CAB-865-2RS232 + CAB-EX-RS232 + CAB-BMW-AVIN + CAB-EX-BASIC connects the full-feature cradle to the vehicle. It plugs into the cradle from the bottom.

It provides vehicle power (9 to 36 V), the ignition signal, 2x RS232, 1x RS485 and 4x GPIO. In addition it offers one video input for an analog or AHD camera; for camera operation the input voltage must be between 11 and 36 V.

Suitable for the CRD865 with the MDT865 and the CRD1065 with the MDT1065.

Compatible with: Topicon MDT865, Topicon MDT1065
