- Vehicle power and ignition
- RS232 interface
- Analog/AHD camera input
- For MDT1065 cradles

The cable set CAB-1065-BASIC + CAB-BMW-AVIN + CAB-EX-BASIC connects the cradles of the MDT1065 to the vehicle. It plugs into the cradle from the bottom.

It carries vehicle power, the ignition signal, ground and one RS232 interface. In addition it offers one video input for an analog or AHD camera, e.g. as a reversing camera; for camera operation the input voltage must be between 11 and 36 V.

Compatible with: Topicon MDT1065
